## TÜV SÜD America Industry Service Expands its ATEX Expertise

**Peabody, Massachusetts.** TÜV SÜD America Inc., a global testing and certification services organization, is pleased to announce that Mr. Gregory Salicki has joined the company's Industry Service group in the position of Senior Engineer for Explosion Protection services.

With ten years of industrial experience and over six years of experience in Product Certification, Mr. Salicki's special interest and expertise lies in ATEX (94/9/EC) and IEC Ex Conformity and Quality Management Systems auditing. Greg is also experienced in other CE marking Directives, Field Evaluation, and NRTL Approvals.

Joining colleague Mr. Norbert Mueller, Mr. Salicki will help further strengthen TÜV SÜD America's position as a market leader for ATEX compliance services. TÜV SÜD offers the full range of ATEX compliance for all protection methods, in addition to educational seminars and full product cycle services from design to installation.

"We are fortunate to have Greg on our team. His experience will ensure we continue to provide our customers with the best level of service to meet their compliance needs," stated Mr. Paul Wierl, Product Manager TÜV SÜD America Industry Service.

Greg is based in TÜV SÜD America's Austin, Texas facility, and will be assisting customers nationwide. Contact him at [gsalicki@tuvam.com](mailto:gsalicki@tuvam.com).

### About TÜV SÜD America Industry Service

TÜV SÜD America's Industry Service division offers a variety of global conformity assessment services that help ensure a product's acceptance and success in the global marketplace. Industry Service's full suite of services includes engineering, construction and repair services for the power and process industries, carbon management, greenhouse gas services, consulting, third-party inspection, testing & certification. The group is currently participating in the ANSI pilot program for ISO 14065 accreditation which specifies the principles and requirements for validation and verification of greenhouse gas (GHG) assertions. The Industry Service division also provides Notified Body services through its parent organization TÜV SÜD Group, a Notified Body for the PED and TPED, and other EU Directives.
